A Message from Mayor Annette Iafallo – Covid 19 Vaccination Pop-up Clinic in Lackawanna

The City of Lackawanna is partnering with Rite Aid Pharmacy to provide Covid-19 vaccinations to Lackawanna residents who are age 16 and older. Since vaccines began rolling out weeks ago, I've been working to bring a convenient pop-up clinic to Lackawanna. My thanks to Rite Aid and our friends at Erie County Senior Services for helping to make this possible.

A limited supply of Covid-19 vaccines will be distributed BY APPOINTMENT ONLY on Wednesday, April 7 and Wednesday, April 14 from 9am to 9pm at the Lackawanna Senior Center on Martin Road. Rite Aid is using the Pfizer vaccine, which requires two doses.

If you're interested in receiving this vaccine, please read the following instructions carefully:

- Appointment requests will be accepted by telephone only at 827-6677. There is no online scheduling option for this pop-up clinic.*
- After dialing the appointment number, you will hear a short-recorded message asking you to leave a voicemail with the following information: your first and last name – please say and spell it clearly, your home address, phone number, with area code if not 716, and date of birth.*
- Appointments will then be assigned in the order in which your voicemail message was received.*
- Once the maximum capacity of vaccine appointments is reached, a waiting list will be created.*
- On Tuesday, April 6, a representative from City Hall will contact those for whom an appointment has been scheduled with date, time and other information including required identification, paperwork and proof of insurance.*
- For eligible seniors, if you need van service for the appointment, please state this in your voicemail message.*

Once again, if you're interested in receiving the Pfizer Covid-19 vaccine at the Lackawanna Senior Center, you MUST leave a voicemail message at 827-6677.

As always, stay safe. And God bless.

Annette
